Safety Data Sheet
according 1907/2006/EC (REACH), 2015/830/EU

TriPart Grow

Date : 01 January 2008 Version No. 5 Review date: 03/01/2022

1 SECTION 1: IDENTIFICATION OF THE SUBSTANCE/ MIXTURE AND OF THE COMPANY/ UNDERTAKING

Product identifier

1.1 Product name: TriPart Grow

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant Identified Uses :

TriPart Grow is a blend of mineral salts formulated and blended in proportions that ensure optimal plant nutrition.

Uses not recommended: Any use not specified in this section or in section 7.3.

Use descriptor system (REACH): No data available (not applicable).

1.3 Details of the supplier of the safety data sheet

Supplier identification	Terra Aquatica
Address	4, boulevard du Biopole 32500 FLEURANCE
Phone number	+33 (0)5 62 06 08 30
E-mail address	info@eurohydro.com

1.4 Emergency telephone number

Medical services/ emergency services	**999**
Fire and rescue services	**999**
Police	**101**
EU Emergency call line	**112**
Toxicological Information Centre ORFILA (INRS)	**+33 01 45 41 59 59**
Toxicological Information Centre South West	**+33 05 61 77 74 47**

2 SECTION 2 : HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Reg. 1272/2008/CLP In accordance with Regulation No. 1272/2008 (CLP), the product is not considered dangerous.

Additional information :

Hazards for humans	None
Enviromental hazards	None
Physico-chemical hazards	None
Other hazards	None

Labelling elements

Labelling according to Regulation (EC) No 1272/2008 [CLP]

2.2

Hazard pictograms	None
Signal word	None
Hazardous substances to be indicated on the label	None
Hazard statements H:	None
Precautionary statements P:	Phrases P P102 Keep out of reach of children

2.3 Other hazards

Reg. 1272/2008/CLP None

3 SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances Non applicable

3.2 Mixtures

Name TriPart Grow

Description

TriPart Grow is a mixture of mineral salts, formulated and blended in proportions that ensure optimal plant nutrition. The exact nature of the salts as well as their proportions are a manufacturing secret. However, they are derived from: Potassium nitrate, magnesium sulphate, ammonium nitrate, mono potassium phosphate, potassium carbonate.

Chemical name	Concentration (%)	N°CAS
Ammonium nitrate	3 - 5	6484-52-2
Potassium Nitrate	0-1	7757-79-1

4 SECTION 4 : FIRST AID MEASURES

No known incidents of damage to persons who have used this product.
However, in case of doubt or if symptoms persist, seek medical attention. Do not give anything by mouth to an unconscious person.

4.1 Description of first aid measures

Following eye contact	Wash immediately with plenty of water, keeping the eyelids well apart, and consult a specialist.
Following skin contact	Rinse thoroughly with water amd soap. Remove contaminated clothing.
Following ingestion	Do not induce vomiting. Seek medical attention immediately by showing the product label.
Following inhalation	If inhaled, move to fresh air, and keep the victim warm and rested. In case of breathing difficulties, consult a doctor as soon as possible.

	Self-protection of the first aider	Depending on the first aid context, wear appropriate protective equipment including a mask or filtered respirator and, if necessary, operate in the presence of another co-worker. Always wear protective gloves and a resuscitation mask in case of artificial respiration. Wash hands thoroughly after giving first aid. If your clothing becomes contaminated with a chemical during first aid procedures, change it.
	Other information	For further details of first aid administration, including but not limited to more serious health effects, the doctor may consult the Toxicological Information Centre, hotline: see section 1.4
4.2	**Most important symptoms and effects, both acute and delayed**	**Potential acute health effects:** No known effect / no data are available. **Signs/symptoms of overexposure:** No specific data.
4.3	**Indication of any immediate medical attention and special treatment needed**	Note to the attending physician Symptomatic treatment required. No special treatment. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

5 SECTION 5 : FIREFIGHTING MEASURES

5.1	**Extinguishing media**	The product is not flammable. Fire hazard low due to the flammability characteristics of the product under normal storage, handling and use conditions. Suitable extinguishing media: In the event of continued combustion, caused by improper handling, storage or use, the following extinguishing media may be used: carbon dioxide (CO2), foam, chemical powders, and in the event of a widespread fire, also water spray. Inappropriate extinguishing media: In case of fire, do not use: Water jet
5.2	**Special hazards arising from the substance or mixture**	Given its flammability characteristics, the product does not present a specific risk of fire or explosion under normal storage, handling and use conditions. Risk related to thermal decomposition products: A fire in the surrounding area will often produce thick black smoke. Exposure to compositional products may pose health risks. Do not breathe dust, vapours or fumes released by the combustion of the products. Decomposition products may include the following materials: nitrogen oxides sulphur oxides phosphorus oxides metal oxide / metal oxides This product is toxic to aquatic life. Fire water contaminated with this product must be contained and prevented from being discharged into a watercourse or sewer.
5.3	**Advice for firefighters**	<u>Protective actions to be taken when fighting fires</u> Quickly isolate the site by evacuating all persons from the area near the incident in case of fire. Do not take any action involving a personal risk or in the absence of adequate training. Keep containers away from fire if it can be done without risk. Use water or water spray to keep containers exposed to fire cool. <u>Appropriate protective equipment</u> The product is not combustible. In the event of a fire in the surrounding area, appropriate

extinguishing media and protective equipment may be used for the other materials present (full protective clothing and personal respiratory equipment), in accordance with EN469 for a basic level of protection against chemical incidents. Have a minimum of emergency facilities or intervention elements (fire blankets, medicine kit, etc.) in accordance with Directive 89/654/EC.

5.4 **Other information**

Additional provisions:

Respond in accordance with the Internal Emergency Plan and the Fact Sheets on Accident and Other Emergency Response. Remove all sources of ignition. In case of fire, refrigerate containers and storage tanks for products that may ignite and explode as a result of high temperatures. Avoid spilling products used to extinguish the fire in the aquatic environment.

6 SECTION 6 : ACCIDENTAL RELEASE MESURES

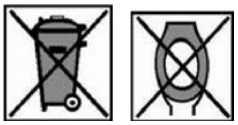
6.1 **Personal precautions, protective equipment and emergency procedures**

For non-emergency personnel: Ensure good ventilation.

In case of accidental release of a large quantity, evacuate all personnel and allow access only to trained operators with appropriate personal protective equipment. (See section 8)

For emergency responders: Responders will be equipped with appropriate personal protective equipment. (See section 8)

6.2 **Environmental precautions**



Avoid contamination of soil, sewers, surface water and groundwater. If this happens, inform the competent authorities.

6.3 **Methods and material for containment and cleaning up**

For containment: Sewer coverage

For cleaning up: Mechanically collect the spilled product and remove any residues by water jets. Provide adequate ventilation at the location of the spill. The disposal of the contaminated material must be carried out in accordance with the provisions of point 13.

6.4 **Reference to other sections**

Collect the remains in an identified container: see point 13 for disposal.

Personal protective equipment: see section 8

Withdrawal considerations: see section 13.

See section 1 for emergency contact information.

7 SECTION 7 : HANDLING AND STORAGE

7.1 **Precautions for safe handling**

Avoid formation of suspended particles and dispersion of the product in the air.

Provide adequate ventilation in areas where suspended particles develop.

Keep away from flames and sparks. Do not smoke. Keep away from heat and other sources of fire.

Do not eat, drink or smoke in work areas.

Wash hands after each use.

Conditions for safe storage, including any incompatibilities

Ensure adequate local ventilation or exhaust.

Store container upright, tightly closed in a cool, dry, well-ventilated place.

7.2		Close containers before and after each use to avoid sources of moisture or heat. Store in labelled bottles. Store in impermeable paved areas if possible.
	Specific end use(s)	No specific end uses.
7.3		Good practices: keep in closed containers. Close containers before and after each use to avoid sources of moisture or heat. Store in areas with waterproof pavement.

8 SECTION 8 : EXHIBITION CONTROLS/INDIVIDUAL PROTECTION

8.1	**Control parameters**	Not applicable Use good industrial hygiene practices.
8.2	**Exposure controls**	
	Appropriate engineering controls	No particular control. Good general ventilation should be sufficient to control workers' exposure to airborne contaminants.
	Individual protection measures, such as personal protective equipment	Use individual protection placed on the market in accordance with the provisions of Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016. Personal protective equipment must be adapted to the risk, kept clean and properly maintained in compliance with the provisions of the labour code.
	Eye/face protection	It is necessary to wear protective glasses in accordance with NF EN166 before handling any chemical products.
	Skin protection	Hands: Wear suitable protective gloves in case of prolonged or repeated contact with the product. Use suitable chemical-resistant protective gloves in accordance with NF EN374.
	Respiratory protection	Ensure adequate ventilation, especially in enclosed areas.
	Body protection	Wear appropriate protective clothing. After contact with the product, all parts of the body that have been in contact with the product must be washed.
	Environmental exposure controls	No data available.

9 SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance	Physical state: All TriPart Grow compounds are in aqueous solution (liquid) Color: Green
Odour	No odor
pH	4.2
Melting point	-1°C (30.2°F)
Freezing point	Not applicable
Initial boiling point and boiling range	101°C (213.8°F)
Flash point	Not applicable
Evaporation rate	Not applicable
Flammability (solid, gas)	Non inflammable
Upper/lower flammability or explosive limits	Not applicable
Vapour pressure	Not determined
Vapour density	Not determined

Relative density	1.14
Solubility(ies) 20°C	Entirely Soluble
Partition coefficient: n-octanol/water	Not determined
Auto-ignition temperature	Not determined
Decomposition temperature	Not determined
Viscosity	Not determined
Explosive properties	None
Oxidising properties	None
Refraction index	Not determined
Rotary power	Not determined

9.2 **Other information**

No other information

10 SECTION 10 : STABILITY AND REACTIVITY

10.1 **Reactivity**

No specific reactivity test data are available for this product or its components in normal conditions of use.

10.2 **Chemical stability**

The product is stable at room temperature in closed packages and under normal storage and handling conditions.

No hazardous polymerization can be produced by any of these components

10.3 **Possibility of hazardous reactions**

No risk of dangerous reactions under normal use and storage conditions.

10.4 **Conditions to avoid**

No special conditions to avoid. Comply with usual precautionary practices regarding chemicals.

10.5 **Incompatible materials**

TriPart Grow contains elements that are powerful oxidants that can react with strong bases to release ammonium. It can also react with powerful reducers.

10.6 **Hazardous decomposition products**

At very high temperatures, decomposition products are formed: phosphorus oxide, magnesium oxide, potassium oxide(s), carbon monoxide and sulphur oxide(s).

11 SECTION 11 : TOXICOLOGICAL INFORMATION

11.1 **Information on toxicological effects**

a) acute toxicity;

Product/ingredient name	Result	Species	Dose	Exposure
Ammonium nitrate	LD50 Oral	Rat	2217 mg/kg	No applicable
Potassium nitrate	LD50 Oral	Rat	2.000-5.000 mg/ kg	
	LD50 Skin	Rat	> 5.000 mg/kg	

Conclusion / Summary: No known significant effects or critical hazards.

(b) Skin corrosion / skin irritation	No known significant effects or critical hazards.
(c) serious eye damage/irritation;	
(d) respiratory or skin sensitisation;	
(e) germ cell mutagenicity;	
(f) carcinogenicity;	
(g) reproductive toxicity;	
(h) STOT-single exposure;	
(i) STOT-repeated exposure;	

	(j) aspiration hazard	
	Symptoms related to the physical, chemical and toxicological characteristics	Ingestion: No known significant effects or critical hazards. Inhalation: No known significant effects or critical hazards. Skin exposure: Slight irritation. No known significant effects or critical hazards. Eye exposure: Slight irritation. No known significant effects or critical hazards.
	Delayed and immediate effects as well as chronic effects from short- and long-term exposure	Health effects are considered unlikely if the product is used as recommended
	Interactive effects	No data available
	Absence of specific data	No data available
	Mixtures	No data available
	Mixture versus substance information	Mixture not containing substances subject to registration. No known adverse effects or symptoms resulting from exposure to the mixture or its components.
	Other information	Comply with good industrial hygiene practices

12 SECTION 12 : ECOLOGICAL INFORMATION

12.1 Toxicity

No known significant effects or critical hazards.

Product/ingredient name	Result	Species	Exposure
Ammonium nitrate	Chronic NOEC 6 to 12 mg/L Fresh water	Crustaceans - Cladocera Crustaces	21 days
Potassium nitrate		Daphnia - Daphnia magna - Young	48h
	Acute LC50 1.378 mg/L - Fresh water	Marine water Algae	240h
	Acute LC50 490 mg/L Fresh water	Marine water Algae	
	Acute LC50 1.700 mg/L/L Fresh water		

12.2 Persistence and degradability

No data available to date to the best of our knowledge

12.3 Bioaccumulative potential

No data available to date to the best of our knowledge

12.4 Mobility in soil

No data available to date to the best of our knowledge. Waste generation should be avoided or minimized as much as possible, and the product should not be discharged into sewers or waterways.

12.5 Results of PBT and vPvB assessment

No data available to date to the best of our knowledge

12.6 Other adverse effects

No known significant effects or critical hazards.

13 SECTION 13 : DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

TriPart Gro can be disposed of as you would any industrial fertilizer.

Do not flush to sewers or waterways.

Waste: Waste management is done without endangering human health and without harming the environment, including water, air, soil, fauna and flora.

Recycle or dispose of in accordance with current legislation, preferably by a licensed collector or company.

Disposal of the product/packaging: Disposal into sewers or waterways is prohibited. Residues

		and empty containers must be handled and disposed of in accordance with the relevant local/national legislation in force. Follow the provisions of Directive 2008/98/EC on waste management. Recover the product as far as possible. Follow local legislation.
	Waste codes / waste designations according to LoW:	Not applicable

14 SECTION 14 : TRANSPORT INFORMATION

Non-hazardous transport. In the event of an accident and product spillage, proceed as described in point 6

14.1	**UN number**	Not regulated. Non-hazardous transport
14.2	**UN proper shipping name**	Non-hazardous transport
14.3	**Transport hazard class(es)**	Non-hazardous transport
	ADR **IMDG** **OACI/IATA**	Not regulated. Non-hazardous transport
14.4	**Packing group**	Non-hazardous transport
14.5	**Environmental hazards**	Non-hazardous transport
14.6	**Special precautions for user**	Non-hazardous transport
14.7	**Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**	Non-hazardous transport

15 SECTION 15 : REGULATORY INFORMATION

15.1 **Safety, health and environmental regulations/legislation specific for the substance or mixture**

Reg. 1272/2008/CE	The product does not contain substances that can be classified as carcinogenic. 1 or 2 according to Reg.1272/2008/EC and subsequent updates.
Reg. 830/2015/CE (REACH)	Not applicable
Special hazards	None
15.2 **Chemical safety assessment**	Evaluation not carried out

16 SECTION 16 : OTHER INFORMATION

Abbreviations and acronyms:	ETA = Acute Toxicity Estimation CLP = Regulation 1272/2008/EC on classification, labelling and packaging of substances and mixtures DNEL = Derived no-effect dose DMEL = Derived no-effect dose EUH = Specific hazard statement CLP

CPSE = Predicted no-effect concentration

RRN = REACH registration number

PTB = Persistent, Toxic and Bioaccumulative

tPtB = Very persistent and very bioaccumulative

bw = Body mass

16.3 Indication of changes:

Date of revision: 03/01/2022

Previous version date: 01/02/2020

Version :5

Modification: Section 1.3, Company name

Note

The indicated mixture does not require an MSDS according to REACH requirements. Form prepared for information purposes.

16.4

This safety data sheet complies with the requirements laid down in Reg. 830/2015/EU. It does not in any way exempt the user from knowing and applying all the documents that govern his activity. The user will take under his responsibility the precautions related to the specific use of the product. All the regulatory requirements mentioned are simply intended to help the recipient to assume his responsibilities. This list should not be considered exhaustive. This data sheet supplements the technical instructions for use but does not replace them. The information in this safety data sheet has been compiled by Terra Aquatica on the basis of its current knowledge (safety data sheet for the active ingredients compiled by the manufacturer and other bibliographical data) as of the date indicated. It is given in good faith. In addition, the user's attention is drawn to the possible risks involved when a product is used for purposes other than those for which it was created. The recipient must ensure that he is not liable for anything other than what is stated in the texts other than those mentioned.

The information describes the safety aspects of the product. It is not intended to guarantee specific properties.

It is the responsibility of our customers to observe the applicable regulations.
